Vivek Kushwaha

+91-8881159113 | vivekkushwaha734@gmail.com | GitHub | LinkedIn | Portfolio

Summary

Software Engineer specialized in Java, Spring Boot, React, Nodejs and distributed backend systems with hands-on experience engineering microservices using Kafka and custom reverse proxies. Contributed to AI-powered marketing automation and enterprise ERP platforms serving 200+ customers at **TechPranee** using React and Node.js.

Experience

• **TechPranee** *Oct 2025 – July 2026*

Full Stack Developer- Full time Hyderabad

Marketing Automation Platform An AI-powered digital marketing automation platform.

- Proposed **40+ agentic workflows and orchestrator agents** using Mastra(Typescript framework for building agents), with human-in-the-loop checkpoints, CopilotKit, and AG-UI .
- Integrated **MCP for keyword research**, and used Firecrawl and ScrapeCreators for automated research on 12+ competitors and social media data collection.
- Automated AI-generated social content publishing using Postiz.

ERPZ - Development Zovia.AI is an intelligent manufacturing and ERP operations platform.

- Developed 10+ accounting modules including invoices, bills, credit/debit notes, journals and banking workflows with **ACID-compliant transactions in Nodejs and React**.
- Deployed report builders for 15+ financial and inventory reports, including Trial Balance and Profit & Loss, using **Puck Builder(React Editor)** for real businesses.
- Collaborated with a team of 3 developers to design, develop, and deliver ERP features.

• **IceCream Labs** *Mar 2025 – May 2025*

Full Stack Developer Intern (Remote) Bangalore

- Engineered responsive web applications using Next.js 15 with a focus on AI agent integration.
- Executed AI features using MCP, improving task speed by 20.5% and reducing API calls by 19.2%.
- Designed and debugged 50+ backend RESTful APIs.

Personal Projects

Lovable Clone 🔗 | Spring Boot, Spring AI, Microservices, Redis, Kafka, K8s *Jan 2025 - Feb 2025*

- Architected a **microservices-based Code Generation platform** that automates full-stack web application generation using LLMs, mirroring the functionality of industry leaders like Lovable/v0.
- Built a **custom Node.js & Redis reverse proxy** integrated with a **Kubernetes NGINX Ingress Controller**, dynamically routing **10,000+ subdomains** for live app previews via rapid Redis lookups.
- Secured and routed backend communication using **Spring Cloud Gateway, Eureka, and Config Server**, validating JWTs across 6 microservices with <15ms overhead.
- Integrated LLM tool calling, reducing context tokens by 50% and improving latency by 50%.
- Decoupled storage operations with **Kafka** for asynchronous, non-blocking file persistence to MinIO.
- Containerized 6 services via Jib to Docker Hub, **deployed on GKE** with GitHub Actions CI/CD.

BondSphere 🔗 | Node.js, React.js, Redux Toolkit, Socket.IO *Jun 2024 - Jul 2024*

- Built a **social media platform** for users to interact via posts and real-time chats.
- Incorporated post creation, likes/dislikes, comments, follow/unfollow, **real-time notifications, and chat using Socket.IO** enabling seamless interaction with under 1s latency.
- **Leveraged Cloudinary**, reducing media load time by 50% and boosting page speed by 30%.

Technical Skills

Languages: Java, JavaScript, TypeScript, C,C++
FullStack: Spring Boot, Spring Security, Hibernate/JPA, Microservices, REST APIs,Resilience4j, Multithreading, NodeJS, React.js
Databases & Messaging: MongoDB, MySQL, Redis, Kafka
Dev Tools: Git, GitHub, VS Code, Cursor, Antigravity, Codex, Claude, Vite, Postman, Vercel, Netlify, Render
DevOps & Cloud: CI/CD (GitHub Actions), Docker, AWS ,GKE, Kubernetes, Nginx

Education

•**Jawaharlal Nehru University, New Delhi** *2021 - 2025*

BTech in Computer Science

Achievements

- **Achieved 1st Rank** in competitive programming event held at JNU among 300+ students.
- Secured a **rank of 10 in "Data Structures and Algorithms"** certification from "iNeuron".
- **Authored** the novel **"A High School Girl to Remember"**, sold 200+ copies across all marketplaces.
